GOT SHORT BEANS?

GET THE "PADDLE" OR "BATWING" TINE FOR YOUR HEADER TODAY!

Many producers will have double crop size soybeans to harvest this fall.

With a 6" wide "Paddle Tine" to lift and feed short beans into the header you will be more likely to send them into the machine where regular tines would miss. They also assist in keeping the cutter bar clear where shatter can occur.

5 GATE STYLES. 5 CHOICES.

FIND OUT WHICH ONE
IS RIGHT FOR YOU.

STANDARD BAR GATES

MESH GATES

PUCKBOARD GATES

SPINDLE GATES

SPIRAL GATES

All Duralume gates regardless of style, offer these distinct advantages over conventional farm gate:

- **Stronger** - No other farm gate offers a comparable strength to weight ratio.
- **Lighter** - Save your back. Buy Aluminum. You can easily handle and move gates alone.
- **Durable** - Our farm gates are essentially permanent and nearly indestructible. Aluminum eliminates rust issues and weakness.
